

FN9620

Force Load Cell

SPECIFICATIONS

- High tensile strength Stainless Steel
- Quick availability & stock
- Ranges from $\pm 500\text{N}$ to $\pm 10,000\text{N}$
- Non-linearity $\pm 0.05\%$ FS
- -40 to 90°C temperature operating range
- Integral shielded cable

The **FN9620** is a S-Beam load cell with ranges from 500N to 10kN, designed to operate in hostile environments from -40 to 90°C with IP68 ingress protection.

It provides high stiffness for high cycle use, low off-axis load sensitivity and high level of accuracy.

To ease its use for Process Control Automation equipment, the sensor's sensitivity (in mV/V) is calibrated with 2% tolerance.

On request, Instruction documents can be provided to ease the selection and use of our sensors and provide helpful tips.

FEATURES

- High tensile strength Stainless Steel
- Metric or Imperial thread
- Surcharge sans destruction 300%
- Safe over load 300%
- 3 meters Integral cable
- IP68-1m water column

APPLICATIONS

- Structure Testing
- Test Benches
- Process Control & Automation
- Mechanical resistance of materials
- Laboratory and Research
